Summary

Software developer with 14 years of experience and background in Finance and Investments. Proficient in Python, Visual Basic, HTML and CSS, with ability to work across Linux and Windows environments. Strong mathematical and logical skills complement my mastery of the complete software development life cycle, from planning and analysis to design, implementation, testing, and maintenance.

Proffesional Experience

Software Developer   2009 - Current
Self employed

- Stock Market Analyzer (Python) - Downloads data for 5500 companies from Yahoo Finance and returns companies which are healthy, growing and undervalued.
- Cineconduct (Visual Basic) - Enhanced cinema operations in Slovakia by designing modern, user-friendly ticketing software. It allowed cashiers to book and sell tickets. Then it produced sales reports and other essential financial insights for management.
- Theme for Wordpress (HTML, CSS, PHP, Javascript) – Increased ranking in Google by designing good looking and fast loading theme.
- Arbitrage Finder (Python) - Scraps betting websites for undervalued odds.
- Trading bot for Kraken (Python) - uses Kraken API to execute orders.
- Bots for games: Dark Orbit, Warframe, Urban Rivals (Python)

Parts Administrator   2022
H.R.Owen PLC

Improved operational performance of Parts Department by resolving order-entry errors. Facilitated seamless cash management.

Service Advisor Assistant   2016 - 2021
H.R.Owen PLC and Jemca Edgware Road

Enhanced customer convenience and trust for prestigious brands Maserati, Bentley, Rolls-Royce, Ferrari and Lexus to increase likelihood of repeat business.

Independent Referee   2014 - 2016
Slovenská Pošta a.s.

Proactively engineered a performance-boosting script.
Ensured seamless computer and equipment operations.
System administration and Database backup.

Internship   2008
Tatra Banka a.s.

Working with confidential documents.
